### Top Five Lowest Stages

Period of Record - 1985 to September 30, 2016

Date	Crest (ft)	Flow (cfs)	Remarks
9/20/1939	missing	9	Possibly incompatible with contemporary stage records - Listed for flow
10/11/1985	2.60	66	none
11/6/2007	2.61	missing	none
9/14/1999	2.62	missing	Also occurred 9/13/1999
10/5/1995	2.70	85	Also 10/3 - 4/1995 - drought summer

### Additional Low Stage Information

Date	Crest (ft)	Flow (cfs)	Remarks
10/15/2001	2.74	64	Also occurred and 9/20 - 24/2001 and 10/13 - 14/2001

### Additional Remarks

Low water records are somewhat limited. Therefore some low stages could be missing. Our low stage listing includes valid and sometimes questionable stages. In some cases we have a brief list of questionable stages since it was unclear if the readings were due to a gauge malfunction or there wasn't enough data to determine its validity. Low stage (if found) are listed if there hasn't been any low stages in the last 15 years. The USGS sometime tweak their readings so please contact the USGS if you need more information.
